ANSI/RESNA WC-2:2019

American National Standard for Wheelchairs –
Volume 2: Additional Requirements for Wheelchairs (including Scooters) with Electrical Systems

This standard applies to powered wheelchairs, including scooters, and accessories for wheelchairs and scooters. It specifies test methods and requirements for the following: dynamic stability; brake effectiveness; energy consumption; maximum speed, acceleration and deceleration; obstacle climbing ability; climatic testing; power and control system; and electromagnetic compatibility.

These standards affect:
The Food and Drug Administration that manages wheelchairs as medical devices
The Centers for Medicare & Medicaid Services (CMS) and Medicare Pricing, Data Analysis and Coding (PDAC) who establish coding guidelines and establish policy for the provision of mobility technologies
The Department of Veterans Affairs – Prosthetics and Sensory Aids Service – Wheelchair purchasing contracts
Manufacturers of wheelchairs, scooters and mobility devices
Researchers
Designers and test laboratories of mobility devices
Users/Caregivers

ANSI/RESNA WC-2 consists of the following sections under the general title Wheelchairs:
Section 2: Determination of dynamic stability of electrically powered wheelchairs
Section 4: Energy consumption of electrically powered wheelchairs and scooters for determination of theoretical distance range
Section 6: Determination of maximum speed of electrically powered wheelchairs
Section 9: Climatic tests for electrically powered wheelchairs
Section 10: Determination of obstacle-climbing ability of electrically powered wheelchairs
Section 14: Power and control systems for electrically powered wheelchairs, scooters and add-on devices – Requirements and test methods
Section 21: Requirements and test methods for electromagnetic compatibility of electrically powered wheelchairs and scooters, and battery chargers
Section 25: Batteries and chargers for powered wheelchairs

Cost: $525

Publication Date: June 2019

How to Order: Standards are available for purchase through RESNA. Go to www.resna.org/at-standards.

The RESNA Standards Committee on Wheelchairs is actively recruiting additional members. If interested, go to http://www.resna.org/at-standards.

RESNA’s Assistive Technology Standards are approved for publication as American National Standards by the American National Standards Institute (ANSI), ensuring that the standards development process meets the Institute’s essential requirements for openness, balance, consensus and due process.

RESNA, the Rehabilitation Engineering & Assistive Technology Society of North America, is the premier professional membership organization dedicated to promoting the health and well-being of people with disabilities through increasing access to technology solutions. Find out more at www.resna.org.
